

DATA SHEET Yagi Antenna 824 to 900 MHz

Features

- High Gain Directional 800MHz Antenna
- Light weight low Wind Loading Design
- Rugged Stainless Steel Construction
- High directivity

Description

The AY12-12 is a rugged stainless steel Yagi designed for commercial applications. It comes complete with mounting clamp and tail feed with N-type female connector. It is ideal for connecting to cellular modems or mobile phones in poor to no coverage areas.

Specifications

Parameter	Min	Typ	Max	Units
Frequency Range	824		900	MHz
Impedance		50		Ω
Input Power			100	W
Gain		13		dBi
Dimensions		1420Lx185W		.mm
Connector		N-type female
